Comments / notes

We usually travel without sound or lighting technicians, therefore we require:

- Adequate sound system (FOH and monitoring) with mics, stands, cabling etc., and an experienced sound engineer
- Stage lighting and a lighting operator

We bring our own drum set, bass amp, guitar amps and keyboards.

230V outlets required near the bass / guitar amps and keyboards

5 monitor mixes would be ideal, but we can work with less (or more) if you are tight on input channels, auxes or wedges. In general we are quite flexible - talk to us if you have any constraints or questions! Contact Bennet (+41 79 608 52 16) or Simon (+41 77 488 99 97).
